**General Instructions
For Companies to Use Checklist**

Please Note: This state's instructions for companies to file with the NAIC are included in this Checklist. The NAIC will send mailing labels, and other information, to all companies but will not be sending their own checklist this year.

Electronic filing is intended to include filing via the Internet or filing via diskette with the NAIC. Companies that file with the NAIC via the Internet are not required to submit diskettes to the NAIC.

Column (1) (Checklist) Companies may use the checklist to submit to a state, if the state requests it. Companies should copy the checklist and place an "x" in this column when mailing information to the state.

Column (2) (Line #) Line # refers to a standard filing number used for easy reference. This line number may change from year to year.

Column (3) (Required Filings) Name of item or form to be filed.

The **Risk-Based Capital Electronic Filing** includes all risk-based capital data.

The **Supplemental Electronic Filing** includes all supplements due April 1, per the *Annual Statement Instructions*.

The **Supplemental .PDF Filing** is the .pdf file for all supplemental schedules and exhibits due April 1.

The **Combined Annual Statement .PDF Filing** is the .pdf file for the Combined annual statement data and the combined Insurance Expense Exhibit.

The **June .PDF Filing** is the .pdf file for the Audited Financial Statements.

Column (4) (Number of Copies) Indicates the number of copies that each foreign or domestic company is required to file for each type of form. The Blanks (E) Task Force modified the 1999 *Annual Statement Instructions* to waive paper filings of certain NAIC supplements and certain investment schedule detail, if such investment schedule data is available to the states via the NAIC database. The checklists reflect this action taken by the Blanks (EX4) Task Force. XXX appears in the "Number of Copies" "Foreign" column for the appropriate schedules and exhibits. **Some states have chosen to waive printed quarterly and annual statements from their foreign insurers and to rely upon the NAIC database for these filings. This waiver could include supplemental annual statement filings. The XXX in this column might signify that the state has waived the paper filing of the annual statement and all supplements.**

Column (5) (Due Date) Indicates the date on which the company must file the form.

Column (6) (Form Source) This column contains one of four words: "NAIC," "State," "Company," or "Domicile." If this column contains "NAIC," the company must obtain the forms from the appropriate vendor. If this column contains "State," the state will provide the forms with the filing instructions. If this column contains "Company," the company, or its representative (e.g., its CPA firm), is expected to provide the form based upon the appropriate state instructions or the NAIC *Annual Statement Instructions*. If this column contains "Domicile," the company's state of domicile should provide the document.

Column (7) (Applicable Notes) This column contains references to the Notes to the Instructions that apply to each item listed on the checklist. The company should carefully read these notes before submitting a filing.

Report of Insured Montana Residents

under health or disability insurance policies
(report due March 1)

FORM MUST BE SIGNED AND RETURNED EVEN IF NOTHING TO REPORT

(Name of Company)

(N.A.I.C. #)

(City-State-ZIP)

Section 33-2-704, MCA, requires each insurer providing health or disability insurance to report the number of Montana residents insured under any policy of individual or group health or disability insurance. If your company provides excess of loss or stop loss health or disability insurance, you must also include in your count of covered individuals all Montana residents whose coverage is reinsured in whole or in part by your company. For the purposes of this report, February 1, 2007 should be used as the date for determining the number of Montana residents insured.

An excess of loss or stop loss health or disability insurer may exclude from its count of insured individuals those who have been counted by a primary health or disability insurer or a primary reinsurer. However, the insurer should include in its count the number of individuals it covers under an excess of loss or stop loss health or disability policy for which the individuals have not been counted by a primary insurer. For example, the insurer should include all individuals in its count if excess of loss or stop loss health or disability insurance policies are issued to self-insured employers or plans, multiple employer welfare arrangements, or any other health insurance situations in which first dollar coverage is not provided by a primary insurer.

IMPORTANT!: If the number of Montana residents insured by health or disability insurance is not known, provide an estimate as directed on the reverse side of this form.

1. Number of Montana residents insured under any individual or group health or disability insurance policy, including excess of loss or stop loss insurance policies covering health or disability insurance in effect as of February 1, 2007 _____
2. The number of insured lives reported on line 1 above is based on (check one of the following boxes):
 - (a) An actual count of lives insured [] (actual)
 - (b) An estimated count of lives insured, pursuant to the directions on the reverse side of this form [] (estimate)

The foregoing is a full, true and correct statement according to the best of my knowledge, information, and belief.

INSTRUCTIONS FOR ESTIMATING THE COUNT OF INSURED LIVES

The following are guidelines for estimating the number of insured lives in Montana covered by disability insurance (as defined in 33-1-207, MCA) by your company, as required in 33-22-1819(7), MCA, if the exact number is unknown.

For indemnity and HMO disability insurance plans, estimate this number of insured lives by following these steps. A demonstration of the calculation shown in steps 5 and 6 below, shown separately for each disability insurance policy form with premium volume in Montana, must accompany this estimate.

1. Determine the total 2005 disability insurance premium on policies in force during the year, separately for each policy form.
2. For each policy form, determine the "average plan" sold under that form. Plans may be differentiated by deductible/coinsurance level or by other features unique to specific plans. The "average plan" is the plan which most nearly represents the total plans sold under that policy form. This could be the plan with the highest premium volume, a plan between (in value) two or more plans with significant premium volumes, or a plan selected by some other indication that it fairly represents an average of the plans sold.
3. Determine the gross premium for each average plan for each of the following family categories: (a) a single insured individual; (b) an insured individual and spouse; (c) an insured family (that is, an insured individual, the spouse and the children); and (d) an insured individual and the children. Each gross premium should be based on policyholder characteristics which affect the rates (such as age, geographic area, occupation, etc.) that fairly represent an average for the blocks of business covered by the policy. This yields the average gross premium for each family category for each average plan under each policy form, and is represented by "Average Gross Premium_y" in the formula in step 5 below, where "y" refers to one of the four family categories described above.
4. Determine the average distribution of the four family categories above. That is, determine what percent of policies are sold to single individuals, what percent are sold to individual and spouse combinations, and so on. This distribution could change from policy to policy. Each percentage is represented by "Percent_y" in the formula in step 5 below.
5. Calculate the policy form's average premium per insured using the formula:

$$\frac{\sum_{\text{all } y} \text{Average Gross Premium}_y \times \text{Percent}_y}{\sum_{\text{all } y} \text{Average Number of Insureds}_y \times \text{Percent}_y} = \text{Average Premium per Insured}$$

The "Average Number of Insureds_y" for each family category is as follows: 1 for a single insured individual, 2 for an insured individual and spouse, 4 for an insured family and 3 for an insured individual with children.

6. Calculate the total number of insureds for the policy form as follows:

$$\frac{\text{Total In Force Premium}}{\text{Average Premium per Insured}} = \text{Total Number of Insureds}$$

7. The final step is to add all the estimates of number of insureds under each disability insurance policy form to arrive at a single estimate.

Stop loss and excess of loss insurers must contact each entity insured by these coverages to obtain the number of insureds, including dependents, covered under the contract, and add these counts. The insurer must demonstrate the method of determining the total number by submitting the name of each entity covered under the contract and the total number of insureds covered under each. If this number includes insureds which were counted by a primary insurer, submit the number of lives which were already counted, then subtract that number from the total number to get the number of lives not already counted. Be sure to submit all three numbers.
